Waiver Request

CC Docket No. 02-6

Dear Marlene:

Form 470 Application #: 447190000889628 was submitted for funding year 2011. This was a 5-year contract for internet access, and a Form 471 Application #: 807830 was submitted for the funding year 2011. I filed a 471 using the original 470 several months ago. I should have a total of nine 471 forms on file but I can only find 8 listed. The web page is very confusing to me and I have checked the page several times, thinking the form was present. Today I discovered the USAC does not have the form 471. The bin # should be 127362. I filed online; the website crashed a couple of times while I was completing the nine 471 forms, but I can't remember which forms I was on when the crashes occurred. Either way, I restarted, reentered all information, and thought I completed the certification part. I have been doing the erate application for several years and don't remember anything on my end that would have kept the form from being certified.

Please grant me a waiver to file a late 471 for a contract agreement, as no 470 posting was required.

Sincerely,

J. Allen (Pete) Seabolt
Assistant Superintendent
Lumpkin County Schools
